INDIA PROMACH 2018

October 4-6, 2018
Bombay Exhibition Centre, Mumbai, India

An International Exhibition on
Process Plant Machinery, Control & Automation Systems

About the Exhibition

INDIA PROMACH 2018, an International Exhibition on Process Plant Machinery, Control & Automation Systems, will be scheduled during October 4-6, 2018 at Bombay Exhibition Centre, Mumbai, India.

The main objective of the exhibition is to provide a platform to showcase the latest technology in the Chemical Process and bring together the key decision makers, manufacturers, suppliers under one roof.

Industry Overview

The process plant machinery sector in India caters to a wide range of process industries like oil and gas, petroleum refining, fertilizers, chemicals, petrochemicals, oleochemicals, pharmaceuticals, metal processing, cement, paper, sugar, food processing and water treatment.

The industry is equipped with modern machinery, in addition to competent engineers and labour, and produces sophisticated equipments and systems like: high pressure reactors, pressure vessels, columns, towers, heat exchangers, multi tubular reactors, evaporators, crystallizers, dryers, road/rail tankers, storage equipments, mineral beneficiation equipments, rotary kilns and separators, etc. for the domestic as well as the global markets.

The demand for Process machinery was INR 24,149 Crores in FY15, about 9% of total demand for capital goods in India which stood at INR 281,566 Crores and is expected to grow at a rate of 5% from FY15 to FY18 to INR 28,000 Crores.

The key growth drivers for the industry are expected to be:

- The Chemical Industry in India has the potential to grow at 9% per annum by FY20 which provides a

large captive market for the engineering companies.

- Make in India initiative by the Government of India which is expected to drive investments in the chemical and allied sectors like chemicals, petrochemicals, fertilizers, textiles, leather chemicals, etc.
- Innovation in machinery to get a major boost with the Government's focus on 'Zero effect, Zero defect' and intelligent water management through 'Clean Ganga' initiative.
- The Government of India, as per the 12th Five Year Plan (2012-17), has allocated a budget of approximately US\$ 165 million for the development of the process plant equipment market in India.
- Total investments in manufacturing pegged at \$ 1.35 Tn, with infrastructure investments pegged at \$ 1 Tn as per 12th five year plan.

Skill India mission, an initiative by Government of India to raise skill penetration of the country will help provide the much-needed skilled labour for the process plant machinery in India.

Highlights of INDIA PROMACH 2018

- Focussed exhibition on Process Plant Machinery in India
- Concurrent with INDIA CHEM 2018
- International participation from China, Japan, Turkey, Korea, Germany, Italy are expected
- More than 20,000 business visitors from India and abroad expected
- Over 300 Indian and International exhibitors expected
- 20,000 sqm of exhibition area

Exhibitor Profile

- Process Technology
- Chemical Apparatus and Plant Construction
- Air Dryers
- Pumps, Compressors, Valves & Fittings
- Automation Equipments
- Boilers and Furnace
- Chemical Equipment – Domestic and Industrial
- Cooling Towers
- Filtration and Separation Systems
- Process Plant design services
- Laboratory & Analytical Technology
- Instrumentation and Process Control
- Pollution control equipments
- Purifying machinery
- Water and Wastewater Treatment
- Research and Development
- Pharmaceutical techniques
- Packaging and Storage techniques

Visitor's Profile

- CEO, Engineers, Technocrats and Scientists
- Marketing Chiefs, Professionals and Consultants
- Policy Makers, Diplomats and Foreign Commercial Corps
- Industry Associations and Trade Delegations from India and abroad
- Buying missions from neighboring regions

Participation Details

Type of space	Foreign (Rates per sqm)	Indian (Rates per sqm)
Bare Space (min 27 sq. mtrs.)	US\$ 325	Rs 9500
Shell Stand (min 9 sq. mtrs.)	US\$ 350	Rs 10500

Goods & Services Tax @ 18% will be charged above the said rate

Participation Fees (Rates per sq. mtr.) in the air-conditioned exhibition area (Hall No. 1)

About INDIA CHEM 2018

The largest event of chemicals and petrochemicals industry in India in its 10th edition, i.e. India Chem 2018, would be organized from 4th – 6th October 2018, jointly by Department of Chemicals and Petrochemicals, Government of India and FICCI.

The most important objective behind organizing the India Chem series is to highlight the investment possibilities in the country's chemical industry and give a fillip to "Make in India" initiative of the Government of India. Leading companies from all over the world predominantly from Iran, China, Japan, United Kingdom, Spain, USA, Germany, Italy, Brazil, Turkey and South East Asian countries are participating both as exhibitors, delegates and visitors.

About the Organizer (Federation of Indian Chambers of Commerce & Industry)

Established in 1927, **Federation of Indian Chambers of Commerce & Industry** (FICCI) is the largest and oldest apex organization of Indian business & industry is the rallying point for free enterprises in India. It has empowered Indian Businesses in changing times to shore up their competitiveness & enhance their global reach.

With a nationwide membership of over 1500 corporate and over 500 chambers of commerce and business associations, FICCI espouses the shared vision of Indian businesses and speaks directly and indirectly for over 2,50,000 business units. FICCI maintains the lead as the proactive business solution provider through research, interactions at the highest political level and global networking. FICCI organises a large number of events including Exhibitions, Conferences, Seminars, Business Meets etc. for promoting Indian Industries across the globe.
